

ESP HOOD

BC Air's Electrostatic (ESP) Hood comes integrated with our proprietary Cylindrical Honeycomb Electrostatic Filter and Baffle Filters to provide a compact filtration equipment for F&B establishments facing space constraint issues.

The ESP Hood treats pollutants from cooking fumes at the source - ensuring that shorter lengths of the Kitchen Exhaust Ductwork is coated with oil and grease. This provides for better fire safety and reduced maintenance frequency. With the filters integrated into the kitchen exhaust hood, maintenance is made more accessible.

Specifications:

Model: 2H

Dimensions: 1170L x 1150D x 905H mm

Power Consumption: 430 W

Weight: 120 kg

Housing Material: 1.0mm SUS304 2B

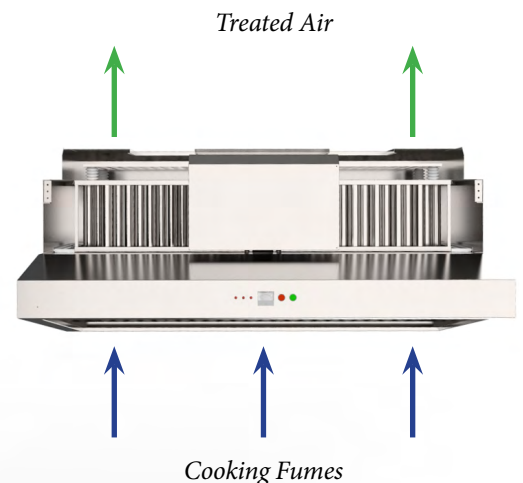

Model: 4H

Dimensions: 1970L x 1150D x 905H mm

Power Consumption: 530 W

Weight: 200kg

Housing Material: 1.0mm SUS304 2B
